

The South Van Zandt Volunteer Fire Department is a community organization that has provided 27 years of fire suppression, 1st Responder, fire prevention, and rescue services to the citizens of southern Van Zandt County. We are an organization that operates through the generous support of the citizens of the community.

We need your help and support. Adding a fire station, apparatus, and equipment is expensive. We are now in our permanent location, Hwy 64 just east of Hwy 243 intersection, next to Sears. Brush Truck #4 is an aging apparatus, this truck must be replaced to continue the mission of the department. With the addition of volunteers in the Canton area, personal protective equipment must be purchased for the volunteers.

Again, please consider helping financially your fire department. No donation is too small or too large. The volunteers of the South Van Zandt Volunteer Fire Department are here to drop what they are doing at a moment's notice to professionally help our neighbors in their greatest time of need. Would you please help us help you?
